

Real-time visibility *and* seamless management

WatchMeGrow's integration with Family

The childcare management software made to be used less

All-in-one childcare software that streamlines daily tasks, so more time is spent on what truly matters: the children.

Simple financial management

Get paid on time, every time, with automated reminders and in-app payments

Stress-free staffing

Time tracking, payroll and clear overview

Parent engagement

In app-messaging and social-media like Newsfeed

Lesson planning and child development

Record observations and daily activity logs, then share seamlessly with families

Professional communication

Leverage AI writing assistance, live translation in 130+ languages, and real-time updates to keep every family in the loop

Attendance and enrollment

Real-time ratio tracking and attendance overview so you can maintain compliance effortlessly

WatchMeGrow™

A camera system with data that fuels a safer and smarter school

Increase transparency and keep families connected, with the highest-quality streaming video available in ECE.

Seamless single sign-on

Families can access live video directly from the Family app without needing to create a separate login.

Smart, secure access

Video access is automatically granted only when a child is checked in and follows them as they move between classrooms and playgrounds.

Enhanced privacy & security

Screenshot protection, detection, and the ability to limit streaming, ensuring privacy and control over video access.

Live reactions for parent engagement

Boost engagement, encourages reviews, and reduce disruptive calls from parents checking in for updates with real-time reactions from parents.

A competitive advantage for your school

Demonstrate a commitment to transparency and trust to prospective families.

The Power of Family + Watch Me Grow

1 One login, countless tools

Say goodbye to multiple logins and passwords — manage finances, staff, parent communications, and live video from one place.

2 Transparency that parents appreciate

Families see real-time video, plus developmental updates, lesson plans, and health info all in one place. Demonstrate your commitment to all the grown-ups in each child's life and help them feel connected to their child when they're apart.

3 Enhanced privacy & security

Consistent data protection and photo-sharing privacy across both platforms. Live video is only accessible when children are checked in, and only for authorized family members.

4 Stay ahead of the curve

By combining WatchMeGrow's live streaming with Family's all-in-one management, you demonstrate a next-level commitment to quality that current and prospective families will love.
